PINNACLE
TEACHING SOLUTIONS

Better English education starts here.

Since 1981

Pinnacle Teaching Solutions is a non-governmental, international education organization bringing more than **45 years of experience** to countries around the world. We selectively partner with ministries of education and other government ministries, as well as schools and universities, to meet the specific needs of students, teachers, and academic leaders.

Our work began in 1981, when we started providing foreign teachers to China following the country's Open Door policy. Since then, we have expanded around the world. To date, we have provided over **14,000 teachers**, taught **1.6 million students**, and developed over **90,000 local teachers** while providing English immersion and global-readiness programs to students in the places we serve.

- East Asia
- Central Asia
- South Asia
- Southeast Asia
- Middle East
- North Africa
- West Africa

Over 14,000 teachers. 1.6 million students. 90,000 local teachers developed.

What We Do

World-Class Educational Partnerships

University Partnerships

Pinnacle places qualified English educators as full members of partner university departments worldwide, formalized through an MOU and Cooperation Agreement with each institution. Built on rigorous recruitment, training, and ongoing support, these partnerships have great longevity—many spanning more than 20 to 30 years.

K-12 and Institutional Partnerships

Qualified K-12 and early childhood educators teach both general and content-based English, using CLIL and SEL-informed instruction.

Pinnacle educators also work in language centers, Montessori schools, refugee and immigrant education programs, and government ministries across sectors like transport, tourism, and higher education.

See just a few of the excellent organizations we partner with at pinnacleteaching.com

Summer / Short-Term Programs

Pinnacle designs and delivers short-term programs, typically running two to six weeks, with some longer programs lasting up to six months. We provide curriculum, materials, and instructional plans. Each program is tailored to the learners' ages, English proficiency levels, and goals, and can be delivered face-to-face, live online, or in a hybrid format.

Capacity-Building Programs

Building long-term institutional capacity for sustainable, high-quality English education that partners can maintain independently.

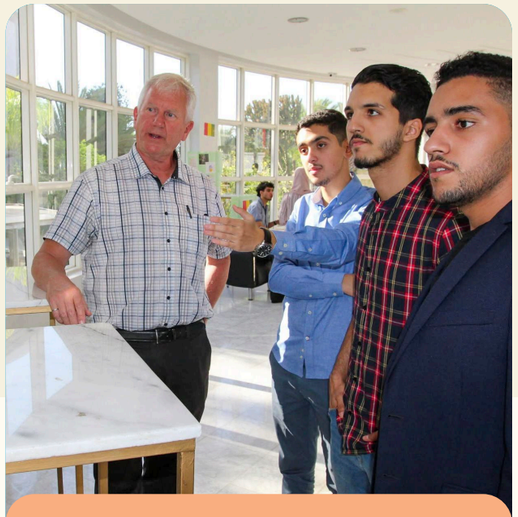

Professional Development Programs

Workshops, seminars, and presentations tailored to K-12 educators, university faculty, and researchers.

Intensive English Programs

Focused, short-term training for academic and professional settings and test preparation for English proficiency and skill-based exams.

English Experience Programs

Immersive English camps, English corners, and other settings focusing on conversational English and production.

Customized Initiatives

Developing new initiatives to meet our partners' specific educational needs.

The annual Pinnacle journal, TESOL Theory and Praxis, featuring practical applications and research from our teachers and colleagues, is available upon request.

Our Approach

We believe education improves people's lives, advances careers, and reveals life's opportunities. Every Pinnacle teacher is selected for strong moral character, respect for other cultures and beliefs, and genuine commitment to students. We provide rigorous training before they enter the classroom and ongoing academic support and coaching throughout their placement. The result is consistent, high-quality instruction that helps students secure stronger jobs, pursue higher degrees, and go on to serve their countries and communities.

Our Values

We believe access to quality education is a global right, and we're committed to supporting that goal through partnerships with educators and institutions around the world. Great outcomes start with great teachers, which is why we invest continuously in their training and development. We see every student as part of the next generation of leaders, and we help prepare them—academically, practically, and emotionally—with the confidence to shape their communities. We take time to understand each partner's context before proposing solutions, so what we build is exactly what they need.

Recognized for Excellence in Teaching

For more than 45 years, Pinnacle teachers have been honored with a wide variety of educational awards, including recognition as outstanding foreign teachers.

- China Friendship Award
- Lotus Award for Excellence
- National Teacher of the Year
- Friendship Medal of Honor
- Favorite Foreign Teacher
- Provincial Friendship Award
- Outstanding Foreign Expert
- Superior Teaching Award
- Teacher of the Year

Pinnacle Leadership

President Tim Davis has led Pinnacle for over 20 years. Under his leadership, we have expanded to provide education in countries around the world. He travels extensively, both to strengthen existing partnerships in the countries where we currently work and to develop new connections in places where we hope to build partnerships in the future.

An international leadership team runs every aspect of the organization, including teacher selection and placement, training and professional development, leadership training and enhancement, and partnership development and maintenance. This team extends to include global, regional, and local leaders in each country, who carry out this work on the ground while meeting the ever-changing needs of English teaching around the world.
